

Activity Description: **Ragwort Pulling**

Risk Assessment

Organisation: Sapperton Wilder	Assessed by: Chenie Prudhomme	Date of Assessment: 5 May 2026
--------------------------------	-------------------------------	--------------------------------

Likelihood: 1- Unlikely: <i>Not expected to happen, but possible.</i> 2- Possible: <i>Could happen during the project</i> 3- Likely: <i>Expected to happen during the project</i>	Consequence/ Severity: 1. Minor: <i>No injury or damage; minimal impact on people or the environment.</i> 2. Moderate: <i>Some injury or disturbance; manageable impact</i> 3. Serious: <i>Major injury, serious or lasting harm to people or the environment</i>	Overall Risk (fig 1.): Low: <i>acceptable risk, to be monitored during the activity</i> Medium: <i>Precautions to be put in place to mitigate risk</i> High: <i>Unacceptable level of risk: action needed before proceeding</i>
--	--	---

Main hazards and Associated Risks:

Ref. No	Hazard/ Risk: What could cause harm?	Who is at risk?	Control measures and ways to mitigate the risks	Further actions or monitoring needed during the event.	Likelihood (1-3)	Consequence/ Severity (1-3)	Overall Risk:
1	Slips/ Trips/ Falls	Volunteers Supervising Sapperton Wilder staff	Assessment of site prior to event to ensure suitability of area for work Ensure working environment is clear throughout the day. Highlight any potential trip hazards to all attendees (e.g. tree roots/ stumps, uneven ground). Ensure a first aid kit is present and stocked for each day.	Continual monitoring of ground/ working area by all participants. Administer first aid if necessary	2	1	Low

2	Skin irritation from ragwort and other plants	Volunteers Supervising Sapperton Wilder staff	Ensure the participants are given a list of recommended clothing to wear prior to the event. Ensure that participants wear protective gloves when working with plants Include an educational talk about the plant species. Ensure a first aid kit is present and stocked for each day.	Administer first aid if necessary Ensure there are extra pairs of gloves available during the day	3	1	Low
3	Uneven surfaces and changes in grounds	Volunteers Supervising Sapperton Wilder staff	Carry out site inspection prior to the event Notify all attendees of potential dangers. Ensure appropriate footwear is worn	Administer first aid if necessary	2	1	Low
4	Weather conditions	Volunteers Supervising Sapperton Wilder staff Members of the public	Monitor the weather reports regularly in the run up to the even. Adapt work according the conditions	Check in with participants to ensure they are happy to continue working if weather conditions change.	2	1	Low
5	Livestock	Volunteers Supervising Sapperton Wilder staff Members of the public	Notify participants if they are to be working near livestock and to not approach If necessary, approach the site via an alternative entrance	Monitor any nearby livestock throughout the day. If needed move further from livestock if possible	1	2	Low
6	Injury from Barbed Wire fences	Volunteers Supervising Sapperton Wilder staff Members of the public	Make all participants aware of any areas with barbed wire	Activity should all be in field and not in contact with barbed wire	1	2	Low
7	Injuries from manual handling	Volunteers Supervising Sapperton Wilder staff	Demonstrate correct pulling techniques before the task begins.	Check in with participants continually throughout the event to make sure everyone is alright.	1	2	Low

			Ensure participants change tasks throughout the day to avoid repetitive strains Ensure those with health conditions or are pregnant do not undertake heavy/ manual lifting Ensure on the contact form for sign ups has a section for them to report any physical problems.	Ensure regular breaks and rests throughout the day, and add in more if the participants need it.			
8	Insect and tick bites	Volunteers Supervising Sapperton Wilder staff Members of the public	Inspect sites prior to work for insect nests Notify all participants do a "tick check" at the end of the day, and what to look out for if they have been bitten. If a nest is uncovered during the days work, move away from the area to new area if possible	Administer first aid if necessary Check in with participants throughout the day to check if they have been bitten	1	2	Low
9	Violence: Physical and verbal assault	Volunteers Supervising Sapperton Wilder staff Members of the public	Always stay in visual contact with volunteers Explain there is a zero-tolerance policy of violence towards any members of the group	Call emergency services if necessary	1	2	Low
10	Personal safety	Volunteers Supervising Sapperton Wilder staff	Supervisor will have a first aid kit and can administer basic first aid if necessary. Supervisor to discuss any health with the upmost confidentiality at all	Supervisor to observe volunteers and if anyone seems to be struggling with the work, check in with them and check if they want to have a break or change to a different task.	2	2	Medium
11	Thorns/ sharp twigs causing injury to legs whilst kneeling	Volunteers Supervising Sapperton Wilder staff	Look out for dead wood, thorns, insecure branches and any signs of decay both in the trees to be	Sweep the area prior to the task starting	2	1	Low

			felled in adjacent crowns and on the ground. Wear thick clothing/ trousers and wear protective gloves	Monitor the workspace and keep it tidy throughout the day			
12	Fatigue	Volunteers Supervising Sapperton Wilder staff	Ensure people work together Take regular breaks and ensure beforehand participants are told to bring plenty of water and food	Check in with participants and take extra breaks if necessary	1	2	Low
13	Wildlife Disturbances (nests)	Flora and Fauna at site	It is ground nesting bird season and we will be working in fields. Be aware and mindful of any nests.	If a nest is found or disturbed, alert a member of the team and move away from the nest to reduce further disturbance.	1	2	Low
14	Eye injury from branches, twigs and thorns	Volunteers Supervising Sapperton Wilder staff	Always cut back small branches to clear a working area near the tree/ hedgerow	In necessary, wear safety goggles to protect eyes.	2	3	Medium
15	Safeguarding issues for volunteers under the age of 18	Volunteers under the age of 18	Any volunteers who are under the age of 18 must be accompanied by an adult who will take responsibility for their welfare and safety throughout the event.	If a responsible adult is not available, then no volunteers under the age of 18 will be able to participate	1	3	Low

Personal Protective Equipment:

Action Plan

Action	Person Responsible	Completion date
Ensure all persons involved have been given access and made aware of the risk assessment	Cherie Prudhomme	5 May 2026

Conclusions:

If the above recommendations are followed then risks can be minimised.

A safety Method Statement can be used as part of this risk assessment which can be used to assist with training and when monitoring work activities.

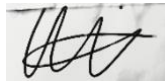

Review of this document should be annually or more frequent if:

- After an accident / incident involving an activity from this risk assessment
- Any significant changes to work practices, materials, equipment or legislation

Manager (Signed):

Dated: 5 May 2026

THIS RISK ASSESSMENT MUST BE SHARED WITH ALL INVOLVED IN THIS ACTIVITY

The sharing of the risk assessment with all staff involved with the activity is vital to ensure all control measures are complied with, are practical and adhered to.
